

FREE SPEECH WHITEPAPER

V1.0 - 2022

FOREWORD CANCELLING THE CANCEL CULTURE

We generally assume that the world is becoming a better place every year. But when it comes to individual freedoms, the opposite is true. Most studies show humanity is now less free than several years ago.

20 years ago we had decentralized Internet and a relatively unrestricted banking system. Today, Apple and Google censor information and apps on our phones while Visa and Mastercard limit what goods and services we can pay for. Every year we give up more power and control over our lives to a handful of unaccountable corporate executives we didn't elect.

Cancelling people has spread like a plague, well beyond its intended intent to stop hate speech, and has become a movement that stifles people's ability to express themselves freely and their uniqueness. This is an obvious issue because people are having their lives destroyed just for deviating from societies expectations.

Individuality and freedom of speech shouldn't be suppressed because doing so might damage someone for who they are today as well as for who they were in the past. In addition to realizing that people can change and that who they once were may not necessarily be who they are today, society as a whole needs to be more tolerant of the beliefs and perspectives of others.

The most active and creative minds of our generation are too busy playing in the rapidly shrinking sandbox called "free enterprise" or producing digital content to keep everyone else glued to their devices for longer. The rest seem to be too distracted with the abundance of cheap digital entertainment to critically assess the trend and take action.

Watching this, we wonder what will become the legacy of our generation. Will we go down in history as those who let free societies turn into dystopian nightmares? Or will we be remembered as those who defended the freedoms that previous generations fought so hard to win?

INTRODUCING FREE SPEECH PROTOCOL

The increasing prevalence of cancel culture has become a major issue in the modern world. Often, those who are cancelled are not given the opportunity to defend themselves or even explain their actions. This has led to a growing feeling of censorship and a lack of open dialogue.

People are more divided than ever, exhausted, and afraid. What is the cause of this mess?

Cancel culture has become increasingly popular in the past few years. It is a form of ostracism, where people are removed from the public eye and their opinions are deemed unacceptable. This is often done through social media, where a person is no longer allowed to take part in conversations or be visible. The effects of cancel culture can be devastating for those affected and can lead to feelings of isolation and marginalization.

At the same time, Elon Musk has been a major advocate for free speech. He has been a vocal supporter of open dialogue and communication, and has been a strong proponent of allowing people to express their opinions without fear of retribution.

In order to join forces with Elon Musk's free speech movement and assist those who have been impacted by cancel culture, We will be sponsoring well-known individuals in society who have been cancelled due to their differences of opinion in order to bring awareness to the mission that we are attempting to spread. This will help ease the worry of individuals that have suppressed their opinions for fear of rejection and ostracization. This will boost traffic and attract new investors to our #FreeSpeech movement.

vitalik.eth @ @VitalikButerin

Freedom is important.

RELEASE YOUR VOICE .

CONCLUSION

The Free Speech Token will be used to facilitate donations to individuals who have been targeted by cancel culture. This will enable those who have been unfairly targeted to receive support. Our community group will be a safe platform for open dialogue and communication, and is designed to be resistant to censorship and provide an element of anonymity to users.

This is a battle for the future of civilization. If free speech is lost even in America, tyranny is all that lies ahead.

Apple has mostly stopped advertising on Twitter. Do they hate free speech in America?

SPREAD THE WORD AND JOIN US FOR THIS ADVENTURE THIS IS YOURS AS WELL JUST AS IT IS OURS AND IT WILL REMAIN THAT WAY

TOKENOMICS

BUY 2%
- MARKETING

SELL 2%
- MARKETING

STAGE 1

- Develop a whitepaper outlining the goals of the cryptocurrency project and how it will help people who were affected by cancel culture
- Create a social media presence by creating accounts on various social media platforms (Twitter, Facebook, YouTube, etc.)
 - Fair LaunchEstablish a like-minded community

STAGE 2

- Spread content across all social media platforms.
 - Press releases, and other marketing strategies
- Partnerships with celebrities and influencers who are open to the idea of free speech and are willing to help promote our cryptocurrency.
 - Donate to various individuals affected

STAGE 3

- Continue to improve the product by gathering user feedback and developing new features.
- Continue to monitor and adjust strategies as needed to ensure the cryptocurrency is successful in helping those affected by cancel culture.
